ESOL classes are for UK residents who do not speak English as their first language. They aim to improve speaking, listening, reading and writing skills and can help you to:

- Find work and gain further skills and qualifications
- Improve your grammar and literacy
- Take part in everyday life in the UK and your community

We deliver ESOL classes at Idea Stores and learning centres across the borough from Pre-Entry to Level 2.

Some of our ESOL classes lead to qualifications and spaces on these are very limited.

Priority is given to learners who are actively looking for work or looking to progress to further studies.

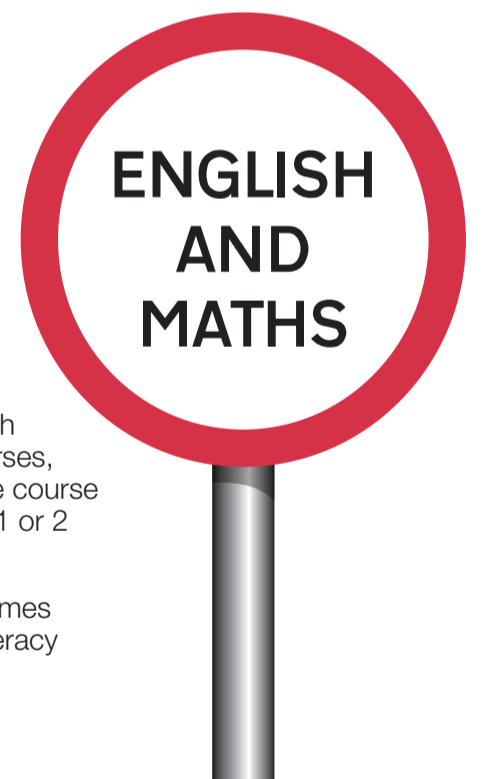

Need to know more about computers, the Internet or email? Enrol onto one of our friendly and supportive IT for Beginners or IT for ESOL classes.

We also offer nationally recognised qualifications in IT including Digital Skills (Entry Level 3) and ECDL (Levels 1 and 2).

Our English and Maths courses will support you to improve your reading, writing, and numeracy skills. Our team is supportive, friendly and experienced and will work with you to help you reach your goals.

Our Functional Skills Maths and English courses are accredited. On these courses, you will take an exam at the end of the course and if successful you will gain a Level 1 or 2 Functional Skills qualification.

We also offer non-accredited programmes including English Writing Skills and Literacy for Beginners.
