Tareshvari Robinson and Angela Groundwater: *Art of Ageing*

2 October - 11 November 2015

Two multidisciplinary artists Angela Groundwater and Tareshvari Robinson have managed to challenge how we think about elderly people by creating fascinating and thought-provoking art for everyone. The Art of Ageing is a month long arts event at Idea Store Whitechapel celebrating United Nations International Day of Older Persons. Accompanying the exhibition, there will be a number of free creative workshops for over 55s, including Mindfulness Meditation and Creative Writing). Robinson painstakingly created two (very lifelike) lifesize figures, a 3D installation entitled Susie and Beryl which will be on display, triggering unexpected reactions, as they dominate the library's ground floor space.
